

## Emails from a few of our satisfied customers:

*I purchased your Staffwriter several months ago and am enjoying it very much. -JR*

*Hi,  
I have your MacMusic Fonts.  
It's wonderful!!! . . .  
Thank you for creating  
such an awesome tool! -AR*

*I absolutely second the motion about StaffWriter. . . . I bet I use it at least twice a week for something or other. I've had my copy for at least eight years, and, like I said, I use it all the time. I used it just today for two different applications. It's worth it's weight in gold . . . -MS*

*Thanks again for creating such a great program. I can't wait to share it with my colleagues - once they hear about it, I'm sure you'll be receiving many orders from up here in Winnipeg!!! Thanks again! -Canada*

*Received my CD today.*

*The project for which I ordered your product is to make rhythm slides for PowerPoint presentations in my middle school band classes. I've been trying (unsuccessfully) to use various notation programs. Nothing thus far has worked & the frustration has been enormous.*

*. . . thanks very, very much for (the) software "tutorials". You explain things very well. -MM*

*Thanks again for all your help. I will recommend you to all the music teachers I know. -IN*

*MacMusicFonts to the rescue!

*You saved the day!!!!!! I'll have a whole set of these for next year!!!! . . . Thanks  
Sooooooooooooooooo much! -TN*

**Your software MAY be the best kept secret in the business!!! - MC**

The music font program I use now is from [www.macmusicfonts.com](http://www.macmusicfonts.com). It's called Staffwriter. The fonts also come with a great little keyboard map, showing what key produces what symbol. That little map alone is worth the money! The program works both on PC and Mac. I love, love, LOVE this program. It is the best money I have ever spent, and would do so again in a heartbeat. --Thank you, D'Net!
